

# Maintenance Cart

This portable cart is specifically designed to ensure easy disassembly of the Immersion Mill when changing media, screens or pegs. The cart is built to operate interchangeably with all models and is mounted on casters for easy storage and maximum mobility. The grind chamber support is designed to accommodate various mill sizes and is removable for easy media recovery. The removable bottom screen allows solvent to drain from the dish while retaining the media. The Maintenance Cart is a must have for convenience, safety and speed when servicing your Immersion Mill.
