NEXGEN™ VACUUM RECIRCULATION MILL

**ULTRA-EFFICIENT MILLING UNDER VACUUM FOR
MAXIMUM PRODUCTIVITY MINIMUM EFFORT**

Rapid recirculation, an aggressive zone for high-efficiency milling, and a tight particle size distribution.

- Small footprint & portable for ease of use in any space
- Greater media field throughput than any mill on the market
- Nanoparticle milling capability
- Vacuum capability
- Minimal waste with 99% product recovery
- Wide range of screen sizes available
- Ergonomic design with multiple standard safety features

Model	HP	BATCH SIZE Min/ Max (Gal.)	MEDIA VOLUME (Liters)
Micromill	1	1L/ 1 Gal.	49 mL
HNG - 2.5	15	15/50	2.5
HNG - 5	25	35/100	4.5
HNG - 20	60	150/400	18.5
HNG - 60	100	400/1000	46L
