

# HOCKMEYER

PROVIDING PROCESS SOLUTIONS AROUND THE WORLD

## DDLD - 0.5

From R&D laboratory analysis and development quantities to pilot scale-ups and small production, our lab series lineup dispersers can handle a wide variety of blending, mixing, and dispersing applications. These machines are designed applying the latest technology for reliability, ease of operation, low maintenance, and operator safety. With many standard features and options available, we meet each client's particular needs.

- Stainless Steel Column
- Adjustable Riser
- Programmable Timer with Auto Stop
- User-Friendly Control Systems
- Integrated Temperature Sensors
- Temperature, RPM, & Tip Speed Readouts
- Safety Can Lock
- Ergonomic Design
- Counterweight Design: for Balance & Safety
- Low Noise Level
- E-Stop

**SWEEP BLADE, DISPERSING BLADES,  
VESSELS, & VACUUM KIT OPTIONS  
AVAILABLE**
