

HOCKMEYER

PROVIDING PROCESS SOLUTIONS AROUND THE WORLD

TVI DISPERSER

Tank-mounted, variable speed single shaft mixer used to disperse or dissolve solid particles in liquid form.

- High pressure single or dual hoist
- Durable design and robust steel construction
- Efficient transmission of horsepower
- Heavy-duty bearings
- Maximum utility through frequency inverter speed ranges
- Handles viscosity ranges 1,000 - 50,000 cps
- Tank-mounted via bridge or flange design
- Thermocouple
- 2nd blade on the shaft to boost the efficacy
- Programmable control packages
