HCP DRUM MILL

ALL THE FEATURES OF THE HCP IMMERSION MILL IN A COMPACT DESIGN

Our patented Immersion Mill uses circulation milling technology by rapidly pumping the slurry through the media field many more times and more efficiently than any other milling technology.

The HCP Drum Mill has an 8" diameter basket with a 2.5 Liter media capacity. The basket assembly is available in .27mm slots. Turbo or marine style propeller options available.

TIGHTER PARTICLE DISTRIBUTION	EASY CLEANUP	PRODUCT RECOVERY UP TO 99%	RUNS MEDIA AS SMALL AS 0.4 mm
FASTER PROCESSING TIMES	BATCH SIZE FLEXIBILITY	MEDIA EFFICIENT - DO MORE WITH LESS!	MAXIMIZES RAW MATERIAL DEVELOPMENT

- Safety features include a Height Limit Switch, shaft guard, and can lock
