PROVIDING PROCESS SOLUTIONS AROUND THE WORLD

TVI TANK-MOUNTED DISPERSER

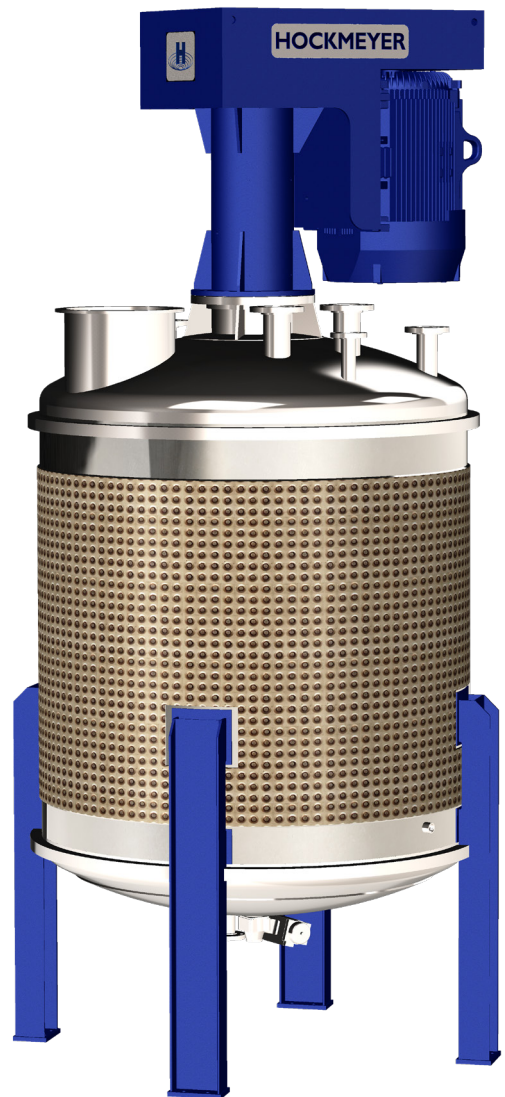

Tank-mounted, variable speed single shaft mixer used to disperse or dissolve solid particles in liquid form.

Custom-designed for specific applications and manufacturing environments.

- Durable design and robust steel construction
- Maximum utility through frequency inverter speed ranges
- Handles viscosity ranges 1,000 - 50,000 cps
- Tank-mounted via bridge or flange design
- For TEFC or XP environment
- Custom vessel + lid designs

OPTIONS

- 2nd blade on the shaft to boost the efficacy
- Programmable control packages
